

Parental Refusal for Publicity

As part of our effort to increase district communication, district staff will be in classrooms and school buildings to take various pictures or videos of students in their learning environments. The photographs and videos will be used for documentation of programs, staff and community newsletters, media releases, other publications and external communications, including the school district website. Students names will not appear with any photograph or work displayed on the district website.

Also, while we make every attempt to work with the media, they may also take incidental photos and/or videos of students in situations we cannot control.

If you wish that your child (children) **not** be photographed for any reason, please complete the form below and return to the school as soon as possible.

Parental Refusal for Publicity

I, _____, as the parent/guardian for
_____, do not want the school district to
use my child's picture(s) in any public display other than the annual school yearbook or class
photo.

_____ Date _____

Parent Guardian Signature

Date

Please return the bottom portion of this form to your building office.

Retain the top portion for your personal records. Thank you.
